

THE DAILY CHRONICLE.

RULE & RICKS, Proprietors.

THURSDAY MORNING, SEPT. 12, 1872.

THE LARGEST CIRCULATION
Of Any Daily Published in East Tennessee.

NATIONAL REPUBLICAN TICKET.

For President,
ULYSSES S. GRANT,
OF ILLINOIS.

For Vice President,
HENRY WILSON,
OF MASSACHUSETTS.

REPUBLICAN STATE TICKET.

For Governor,
HON. A. A. FREEMAN,

For Congress at Large,
HON. HORACE MAYNARD.

Electors at Large,
HON. ALVIN HAWKINS,
HON. JOHN TRIMBLE,
HON. L. C. HOUK.

We learn that Col. Garrett, candidate for Congress in this district on the independent, Andrew Johnson, anti-convention ticket, is making a vigorous canvass west of the mountains. "What's" Caldwell, and who is he for?

The effort on the part of the Greeley papers now is to inaugurate a new principle in mathematics. They declare that under certain circumstances, 16,000 is no more than 11,000. It is by this mode of reasoning that they figure out a Republican loss in Maine and Vermont. If any man is fool enough to believe this, he is a Democrat by nature and we have no disposition to change him.

Let not the Goliath of the big organ vex his righteous soul about the canvass on the stump between Johnson and Maynard, but rather let him turn his great mind to preparing for a canvass of the State with our Elector at large, on the Grant and Wilson ticket, Judge Houk. If he meets the Judge on the stump, we guarantee that Mr. Johnson shall not be neglected. Business is business.

INSTRUCTIVE READING.

The case of Baxter vs. Mabry, Burch et al, was heard by the Supreme Court Tuesday and yesterday, on printed arguments by both sides. The constitutionality of the late "Change of Venue Act," passed by the Legislature to assist the defendants in their defense of this suit, was involved. The argument in behalf of Col. Baxter, making a pamphlet of 37 pages, was printed at this office, and is full and exhaustive of the subject. It is at once the most satisfactory and withering exposition of the mean, partisan bitterness that actuated the Legislature and Governor to pass the act, that has yet been made of this reprehensible interference of the Executive and Legislative Departments of the Government in a suit pending between private citizens, and will well repay any one for the time spent in reading it. We have a number of copies at this office for gratuitous distribution, and we invite everyone who wishes to see it to call soon and get a copy. It is very instructive reading.

PRESIDENT GRANT'S accusers, especially those who oppose him under the guise of "Reformers," are about the scaliest, surliest set of dogs in the Greeley pack. Farnsworth, of Illinois, John F. by name, sometimes called General, belongs to this class. He has been courting the favor of Democrats for a long time, by the exhibition of a captious fault finding spirit, toward the President and all his friends. His malignity has broken out on sundry occasions, in groundless attacks on Mr. A. B. Mullett, the industrious and efficient Superintendent Architect of the Treasury Department. He is not a man of any ability and attempts to gain notoriety rather than a reputation for anything good. He, like many others of his "co-Reformers," fails to present a record that would justify one in dubbing him a reformer in the true sense of the word, and comes in for a fair share in the general stock of damaged reputations. It has leaked out and has been proven, that during the war, while he was commanding a regiment of Federal soldiers, he received at one time the sum of FIFTY HUNDRED DOLLARS as a bonus for transporting his regiment over a certain railroad instead of over a competing line. Mr. Farnsworth can now go to the head of the class. Next!

The big organ seeks to divert public attention from its position, perched on the fence between Johnson and Cheatham, the nominated and the independent, by throwing paper pellets at Maynard, Thornburgh and Gibson. It is exercised about Maynard, because he fails to his away to meet Johnson on the stump. It is greatly distressed because of fears that Gibson has the inside track for Congress in this district against Thornburgh, notwithstanding the former avowed distinctly in his speech on Tuesday night, that he is not a candidate for any office. The big organ man attaches very little importance to such declarations, as he very well remembers that a certain gentleman for the purpose of vindicating his character some time ago, procured a number of signatures to a paper calling upon him to announce himself a candidate for Congress, to which he replied, according to a previous understanding of a portion of the signers, that he was not a candidate and would not be. But notwithstanding this, he was a candidate before the Democratic Conven-

tion of this district, and also of the State. It is natural under such circumstances, that he should attach but little weight to such promises. But he must remember that all men are not forced to such subterfuges to obtain favors at the hands of their party.

The Best Seed Wheat.

The plowing done, the next thing is to secure seed for the crop, and at the same time to make preparation to have on hand in time the manures you may intend to purchase for your crop. Among the new varieties of wheat of late years introduced we find in the Report of the Agricultural Bureau, just issued, several varieties which have been found to be very successful, among them the Fultz, originally introduced in Pennsylvania, the Tappanhook, the Diehl, the Walker, the Boughton, &c. Whilst we would not recommend any expenditure at an undue high price, still we think it exceedingly advantageous to change the seed at least every second year, and if you can do better, effect an exchange with some of your neighbors. Seed wheat should be gotten out with the fall. When the machine is used many of the grains are cut, and germination is rendered doubtful. The cleansing of the wheat from all impurities, as far as possible, should be attended to previous to sowing; a strong brine should be made of water and soft water, and in this the grain should be washed for five minutes, taking care to skim off all the light and foreign seeds. If the grain be smutty, this washing should be repeated in another clean brine, when it may be taken out and intimately mixed with one-twelfth its bulk of fresh, pulverized quick-lime. This kills all smut, cleans out weeds from the grain, and insures early, rapid growth. When the seed is not smutty it may be prepared by soaking or sprinkling it with stale urine, and afterwards mix with the lime, and if well done this also will prevent smut, though the first is most certain. In England the use of sulphate of copper is the most prevalent mode of preparing seed wheat as a preventive of the smut, one pound dissolved in as much water as will thoroughly wet the grain being sufficient for four bushels of wheat. As soon as it is dry it can be sown.

NEW ADVERTISEMENTS.

Avoid the Perils of the Season.

Autumn, although the most radiant portion of the American year, has its drawbacks. The heavy evening dews and morning vapors and the great disparity in temperature between the night and day, give rise to many painful disturbances of the bowels, such as cholera morbus, diarrhoea and dysentery. The digestive organs are also unfavorably affected by the change of season, and dyspepsia generally suffer most severely during the fall. Derangements of the liver are likewise common, and miasmatic fevers prevail in newly settled districts and low-lying and marshy localities. These unpleasant contingencies of the season are not, however, unavoidable. By strengthening, toning and regulating the system with Hostett's Stomach Bitters even the most delicate may escape them. At the expiration of summer all the bodily powers are in a somewhat exhausted state. They require the wholesome stimulation which this gentle vegetable invigorant supplies. Under its restorative influence the nervous energy which the willing heat of July and August had kept in abeyance or partially extinguished, crops out afresh: the flaccid muscles recover their elasticity; the appetite revives; a deeper color to the processes of digestion and assimilation become more rapid and perfect; the spirits rise, and the whole organization acquires its maximum of activity and resistant power. Even persons of comparatively feeble constitutions, when thus fortified against the attacks of the season, will have little cause to fear a visitation from any of the disorders to which we have referred. As a protection against miasmatic fevers, and all epidemic diseases, Hostett's Bitters may be justly pronounced not only unrivalled but unapproached. Look well to the label and imitations in the market.

EAST TENNESSEE UNIVERSITY

FALL SESSION

Thursday, September 12, 1872.

For a partial list of country property we invite attention to the Weekly Chronicle, and full lists and maps can be had at our office. NO CHARGE FOR SHOWING PROPERTY

Patent Paint.

BRADLEY'S

PATENT ENAMEL PAINT.

THESE Paints are composed of the Purest and best materials known to painters; the principal ingredients being Pure White Lead, Zinc and Linseed Oil, which are made to unite in a homogeneous mass, by the addition of other materials, which add greatly to the durability, elasticity, beauty and strength of the Paint. The whole are chemically combined so that the pigments are held in permanent solution, thus forming a new compound which dries upon the surface and adheres firmly to it, forming a smooth, glossy, firm, elastic, beautiful and durable Paint. The Oil, which is the real life of the Paint, cannot leave it and be absorbed by the substance to which it is applied, as it does in paints mixed in the ordinary way, thus leaving the pigments dry and chalky, to wash and run off in a few months. This Paint is unaffected by changes of weather; it is perfectly impervious to the action of water; is well adapted to all classes of work, and is in every way a better Paint for either inside or outside work, or boat painting, than any other Paint known to the trade, and will last, at least, three times as long as the best Lead or Oil, mixed in the ordinary way. These Paints are ready for use; are easily applied by any one; require no mixing, stirring, or additions of dryers. Full satisfaction guaranteed to customers. Sold by the gallon, keg and barrel. Orders attended to promptly. Specimens and price list furnished gratis.

Price List Bradley's Patent Enamel Paint.

Mixed ready for use, and easily applied, in Pure White, and any Shade, Tint or Color desired.

Inside and Outside White, \$2.50 per gallon.
